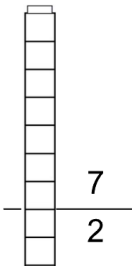
Kindergarten Weekly Newsletter

Week of January 20, 2026

Math

This week, students will practice decomposing (breaking apart) towers of 8 and 9. Students will each receive cubes to create a tower and then break them apart to find two addends that equal 8 and 9. They will record with a drawing and an equation.



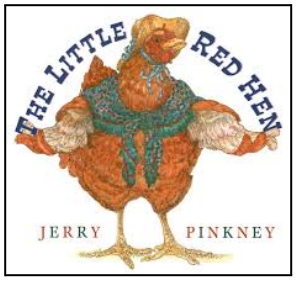
7+ 2 = 9

Math Vocabulary: addition, + , plus, equals, = , addend, combination, decompose

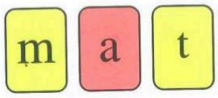
At home, ask your child to model all the ways to decompose 8 or 9. You can also give them a word problem "Pam has 2 bins and 9 blocks. How many ways can Pam organize her blocks?"

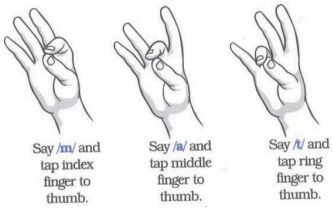
Literacy

In Literacy, we will continue discussing the events, along with the problem and resolution in *The Little Red Hen.* As a class, we will write our own shared narrative that will include characters, a setting, a problem, and resolution.



In Fundations, students will continue to learn the letter formation for uppercase letters. This week's letters are I, J, K, L, M, and N. Students are continuing to tap and blend to read CVC words and nonsense words.





At home for phonemic awareness, continue to practice segmenting (attached is a segmenting Heggerty video), writing and reading CVC words.

ReadaFun!

Read-A-Thon

The 217 Read-A-Fun has begun! If you have not already done so, please sign into your student account on https://www.readafun.com/ . Log any book titles that your child reads each day. Your child can also answer reading response questions, customize their owl avatar, visit, like, and comment other students' posts! Reach out to family and friends to sponsor your child's read-a-fun. All proceeds go to the PTA. Your child can even win weekly prizes throughout the Read-A-Fun.
