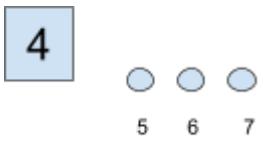
Kindergarten Weekly Newsletter

Week of January 5, 2026

Math

This week, kindergarteners will continue learning the addition strategy called **counting on**. Counting on is when we start with the larger number and count forward by the smaller number to get the sum. We use the counting on strategy when adding 1,2, or 3 more only. Students will begin the week just counting on 1 and gradually count on 2 and 3 more.

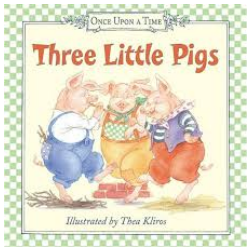


4 + 3 = 7

At home, have your child practice their counting fluency by asking them to count starting at a number other than 1. For example, "Count on from 4." Your child will count "4, 5, 6, 7, 8, 9, 10.

Math Vocabulary: addends, sum, plus, equals

Literacy



In literacy, we will be reading *Three Little Pigs* to continue learning about the story elements. After reading the story, students will identify the characters in the text. Students will choose one character from the book and draw a picture with a label. Then, we will examine the importance of describing characters and come up with descriptive words for each character.

In Fundations, we will continue with Unit 2. This unit focuses on the letter formation for uppercase letters. In this unit, students will also begin to blend and read CVC words. CVC words are words that begin with a consonant, have a vowel in the middle, and end with a consonant. Some examples are: map, sit, rug, den, hot.

At home, review the letters and sounds of all 26 letters in the alphabet and their correct letter formations!

Reminders

- Please send in a change of clothes (top, bottom, underwear, socks) that is appropriate for the winter time.
- Once we get a new pair of clothes, we will send home the ones we have.
- Continue practicing independence with your child. They should be able to do things like zip their coats and put on their hats and gloves all by themselves.
  Label their name on all winter clothing!
