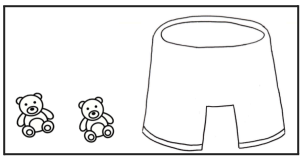
Kindergarten Weekly Newsletter

Week of February 9, 2026

Math

In math, students will practice subtraction facts. We will play **Bears in a Cave**, with our partners. They will count out 5 bears and take turns putting bears in a cave. The other partner has to figure out how many bears went in the cave and how many bears are left. Then both partners will record their work using pictures, numbers and words.



5 - 3 = 2

"I started with 5 bears. I put 3 bears inside of the cave. I see 2 bears left outside of the cave. So, 5 - 3 = 2"

At home, you can play "bears in a cave" with any toys or objects! For example, putting dolls in a doll house or soccer balls in a net.

Math vocabulary: equation, minus, subtraction, difference

Literacy

In literacy, we will be finishing our 2nd module in Wit & Wisdom. In this Module, we learned the 5 elements that make a good story! Students have been working on writing their own narrative, by first completing a story map with these elements.

	C	Character	Who the story is about
	S	Setting	Where and when the story takes place
	P	Problem	The main character's challenge
	E	Events	What happens
	R	Resolution	End of the problem

At home, ask your child to tell you about their narrative!

In Fundations, students will continue to practice decoding CVC words, nonsense words, and practice trick words in sentences. Trick words learned so far: the, is, in, me, a, and

At home, tell your child a CVC word, and have them tap out the sounds and write all three sounds to spell it. (examples: bat, sit, mug, mad, jet, fog, big, rat, net)

Respect for All Week

This week we will be celebrating **Respect for All Week**, a special week dedicated to promoting kindness, inclusion, and respect throughout our school community. Each day will focus on a specific theme:

- **Monday 2/9:** Celebrating Kindness / Be an Ally (wear yellow)
- **Tuesday 2/10:** Anti-Bullying & Cyberbullying **(wear orange)**
- **Wednesday 2/11:** Respect for Celebrating Growth Mindset & Learning **(wear green)**
- **Thursday 2/12:** Respect for Diversity (wear any color/thing that represent you/your culture)
- **Friday 2/13:** National No One Eats Alone Day **(wear red/pink)**

Dates

- **Friday, 2/13** - Valentine's Day Celebrations
- **Monday - Friday, 2/16 - 2/20** - NO SCHOOL
- **Monday, 2/23** - 100th Day of School
- **Thursday, 3/12** - HALF DAY, 11:20am dismissal for Virtual Parent-Teacher Conferences

Kindergarten Field Trip to Mount Vernon Hotel & Museum

- **K003 - Thursday, 3/5**
- **K001 - Friday, 3/13**
- **K004 - Thursday, 3/19**
- **K002 - Friday, 3/27**

App of the Month (February)

Scratch Junior

ScratchJr is an introductory programming language that enables young children (ages 5-7) to create their own interactive stories and games. Practicing computer science skills such as algorithms and loops will help your child while engaging in computer science lessons at school. Desktop download
