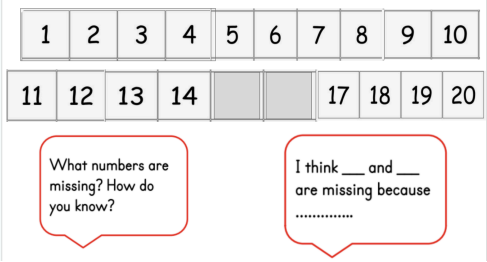
Kindergarten Weekly Newsletter

Week of March 16, 2026

Math

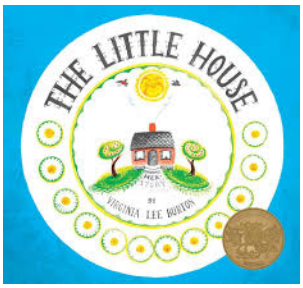
In Math, students will work on comparing numbers 1-10 and then 1-20, using comparative language "greater than" and "less than". Kindergarteners will also play a game called "What Numbers are Missing?" with a partner. Partners will line numeral cards 1-20 in order. One partner will flip and cover 2 numeral cards and ask "What numbers are missing?" The other partner must guess what's missing and say how they know!



Math Vocabulary: Tens, Ones, Decompose, Ten Frame, double ten frame, before, after, greater than, less than.

Literacy

In Literacy, students will complete their informational writing about ***School Then and Now***. Later in the week, we will read ***The Little House*** by Virgina Lee Burton. Students will share what they notice and wonder after reading this book and discuss what changes the little house sees in her neighborhood.



In Fundations, students will continue to practice decoding CVC words, nonsense words, and trick words. We will also practice writing CVC words and trick words in sentences.

At home, read through books with your child and have them find the trick words we have learned so far: **in, is, the, me, and, a, are, to, I, was, we, they.**
This week's word is: **his**

Reminders

Decodable Book Baggies: Students should be reading decodable books at home each night. Please return book bags **every Friday** to book shop. There may be a chance that students will borrow a book or two that they have borrowed before. This is a great chance to reread and improve fluency! Book baggies will stay in the classroom over the weekend.

Red Folders: Please check for any important flyers or letters and **empty out** folders every night.

This week homework and decodable book bags should be returned on Thursday 3/19!
There is no school on Friday 3/20.

Dates

- **Tuesday, 3/17** - School Spirit Day
- **Friday, 3/20** - SCHOOLS CLOSED, Eid al-Fitr
- **Monday, 3/30** - NDI Performance, more details to come
